Technical comments:³

The Commission recommends that the chemical name in the proposed article description be amended to read “*p*-Anisaldehyde” (as it now appears in the HTS).

³ The Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only the U.S. Customs Service is authorized to issue a binding ruling on this matter. The Commission believes that the U.S. Customs Service should be consulted prior to enactment of the bill.
